NDC Offer Product BaG

Public Model PCCs are not eligible for BaG and must be rejected during the BaG tool registration process.

Group bookings can only be booked under the NDC Bilateral framework.

Please note:

Anything not mentioned is generally available across all channels. This overview focusses solely on the differences.

- 1.SPRK is a web-based booking interface provided by Lufthansa Group airlines (powered by Accelya/Farelogix).
- 2.Subject to market specific rollout.
- 3.Please consult the respective aggregator and certified technology providers for availability in your market(s).
- 4.NDC Public DCC amounts are valid during our initial, gradual, roll-out and will be differentiated at a later stage.
- 5.Subject to implementation on API provider side. If not embedded, available via SPRK.
