Description

eMinds is a Software House specializing for 20 years in taylor-made tech solutions for the Travel Industry, both for the Leisure and the Business Travel branches. Our Platform counts more than 120 integrations with providers of touristic services. Main development domains: - Middleware - Front, Back, MidOffice - B2B & B2B2C platforms - Mobile applications. Main Products: a) Travel Management Companies: a Self Booking Tool for Business Travelers, allowing cost control to corporate clients, through an accurate travel policies module b) Tour Operators - three main products: 1. TailorMadeTour: a Unique and Innovative All-In-One, Multi-Supplier Platform, it allows TOs to create and book complex itineraries in a couple of minutes, increasing their efficiency and saving them a lot of time 2. Internet Booking Engine (IBE), a platform fully integrated with every touristic service 3. OTAs/Airline GSA: Consolidator platform for NON-IATA Travel Agencies integrated with GDS and NDC Engine
