

Fares Exclusion from GDS on SIN-DACHB Route

From September 1 to November 30, 2025, Lufthansa Group will make fares with booking classes K/L/T/S, for flights departing from Singapore and arriving in DACHB area, exclusively available via NDC (New Distribution Capability) channels and .com.

This approach enables us to offer more flexible and personalized options to our partners and customers. By providing differentiated content through NDC, LHG continues to support the transition to modern, future-ready retailing solutions.

Key Highlights:

- Exclusion period from September 1 to November 30, 2025
- Applies to all points of sale for travel originating in Singapore and arriving in DACHB (incl. S+ scope)
- Affected Fares are within booking classes K/L/T/S and issued on LH/220-, LX/724-, and SQ/618- ticket stocks
- System-wide applicability

The performance and feedback of this approach will be tracked closely, and additional measures may be introduced based on the results.

For any questions or support, please contact Xu Zhaomin (AG/XD-G).
