Travel Tech Provider Details for

Peakwork AG

06/02/2025

Country	Germany
Solution	Farelogix
Customer Segment	Leisure
Regions	EU

Description

With its unique Player Hub Technology®, Peakwork has created a worldwide leisure travel network that directly connects the global supply and demand of travel products, live in more than 33 countries. Its flexible and scalable smart cache solutions are designed to offer inspirational searches and handle large traffic demands while reducing live requests and related costs. Use cases imply: - dynamic Packaging for tour operators: Connect airline NDC content to leading international tour operators to create market specific dynamic travel packages and increase ancillary sales. - Peakwork's airline holidays solution offers access to leading accommodation suppliers and fulfillment partners to combine empty seats with hotel rooms and build competitive holiday packages to ultimately increase margins. - Peakwork connects the airline's direct API (e.g. NDC) to metasearchers such as Google and Kayak, OTAs such as Kiwi.com and more to offer facilitated booking functionality and receive additional bookings at a higher conversion rate.
